

Instructions for filling in community points for AYY's scholarship application form

Below are the instructions for filling in the community points for the scholarship application form. Read it carefully before filling out the application form! Also read "Community activity scoring 11 April 2023"

General instructions

The application form only takes into account already completed studies and voluntary work.

You can choose a maximum of three volunteer positions to be scored per year. They are marked on the application form year/1-3.

If the task includes participation in the section/committee/etc. activity, it is included under the same position and it is taken into account in the scoring.

You can get points for the same position more than once, if you have worked in the same position for several years. Notice that you have to put them in different years.

Each position is followed by a number interval xx-yy. If your position belongs to that category, give yourself a score between that scale. The lowest score includes a workload of about 1 hour per week and the highest score 20 hours per week.

You cannot get community activity points for the activities of closed clubs or tasks in which you work as an employee.

Position descriptions

Positions of trust (AYY)

- Scale: 40–50
- AYY's board or a similar significant position in AYY

Representative Council (AYY)
